Education

Bachelor of Computer Application- BCA, 2022-2025 , GPA: 6.89

Maulana Abul Kalam Azad University of Technology, Kolkata, India

Skills

- Languages: Python, PHP, Java, JavaScript
- Frontend: React.js, Next.js, Tailwind CSS, SASS
- Backend: Node.js, MongoDB, MySQL.
- Libraries: GSAP, Framer Motion
- Tools & Platforms: Git, GitHub, VS Code, Vercel, Postman

Professional Experience

Web Development Intern

Euphoria Genx, Kolkata Sep 2024 – Dec 2024

- Developed a full-stack online book-selling web application using PHP and MySQL, implementing key e-commerce features like product listing, cart management, and secure checkout.
- Designed and built responsive frontend interfaces with HTML, CSS, JavaScript, and Bootstrap, ensuring seamless user experience across all devices.
- Collaborated with a team of developers on project planning, deployment, and code reviews, ensuring high code quality and timely delivery.

Projects

1. GitHub User Finder (React.js, GitHub API, Tailwind CSS)

GitHub ↗ Live Demo ↗

- Developed a GitHub User Finder web application with React.js and Tailwind CSS, enabling quick and efficient profile searches.
- Integrated the GitHub REST API to provide instantaneous and accurate retrieval of user profile data.
- Implemented error handling and loading states to enhance reliability and provide smooth user interactions during API requests.

2. Mood-Adaptive Player (React.js | Face API.js)

Github ↗

- Built a real-time mood-based music player leveraging Face API.js to detect facial expressions and deliver personalized song recommendations.
 - Implemented a scalable REST API with Node.js and MongoDB to dynamically fetch, manage, and serve songs for a seamless experience.
 - Optimized application performance by handling real-time video stream analysis efficiently, reducing latency in mood detection and song playback
-
